

INVENTOR: INCH, John et al.
Serial No. 10/821,489

REMARKS

The enclosed amendment is being made to correct a clerical error in the instant application as it was originally filed. The instant application was mistakenly filed as a divisional of U.S. Application Serial No. U.S. Application Serial No. 09/947,984; however, it was intended to be filed as a divisional of U.S. Application Serial No. 09/947,484 which was pending at the time of filing of the instant application. The correct priority was set forth on the Utility Patent Application Transmittal filed with the instant application on April 9, 2004.

Respectfully submitted,
